ANZCCART Conference 2026

Culture, Care and Collaboration

CALL FOR POSTERS

ANZCCART is now inviting **proposals for posters** for this year's ANZCCART Conference which will be held in **Sydney from 21st to 23rd October**.

Please note that the poster display will only proceed if there is sufficient interest. Therefore, all we are requesting at this stage are proposals in the form of a title or title plus brief abstract.

Poster proposals may be on any topic relevant to ethical, social or scientific issues relating to the use and wellbeing of animals in research or teaching. Although a wide range of ideas is encouraged, suggestions include (but are not limited to) new technologies in animal-based research, non-animal methods, managing high impact animal models, research into vertebrate pest control, AEC operations, ethics and openness initiatives.

Proposals for posters (i.e. a title and/or abstract) must be received by Friday 22 May.

If the number of proposals indicates there is sufficient interest to support a poster session at the conference, you will be asked to provide a full title and abstract by **Friday 31st July**.

NB: Poster specifications are portrait orientation and A0 (approx. 84cm x 120cm high).

For all enquiries, please email anzccart@adelaide.edu.au with cc to Paul Sou psou1610@gmail.com
